NEWSLETTER TO STAKEHOLDERS OF OUR SCHOOL COMMUNITY May 2011

Hello!

It is official - we have received a letter from the Minister of Education, Anne Tolley instructing the Board of Trustees of Miramar South School and Strathmore Community School to consult with the community about the future of education in our area.

The consultation process will begin very shortly (two weeks) and the Board will host a number of parent and community meetings to discuss the following options given by the Minister.

1. Merge Strathmore Community School and Miramar South School on the Strathmore Community School site - Strathmore Avenue.
2. Merge Strathmore Community School and Miramar South School on the Miramar South School site - Kauri Street.
3. Another option that may be proposed by the school communities.

Both Boards of Trustees are working with an external facilitator to complete a consultation document to look at scenarios that best serve the families in our community. We will ensure that you get a copy of the document for feedback. The document is likely to also give dates of public meetings.

Please be aware that education is of public interest and will no doubt feature in the media as we engage in the consultation process.

Kind Regards

Jeanette De La Mare
